

Anesthesia Consumables

QUALITY AND VALUE
FOR THE OPERATING ROOM

Now you can deliver perioperative care with Mindray's quality and economical anesthesia consumables. Our anesthesia consumables complement your anesthesia systems, offering one solution in the operating room. We make it simple. We identified the most common configurations in anesthesia breathing circuits, face masks, laryngeal airway masks, gas sampling lines and filters, and deliver a quality product at a value that's right for you.

One package, one patient. **Anesthesia Circuit Packages** offer the convenience of packaging the breathing circuit, face mask, B/V filter and gas sampling line for single patient use. Mindray anesthesia consumables meet all ISO standards.

Breathing Circuits offer 90" expandable hoses and are available in 15mm (Pediatric) and 22mm (Adult) breathing circuit diameters. Machine end cuffs on all circuits allow for ease of connection and removal from the anesthesia machine.

Breathing Bags are latex free ranging from .5 to 3 liter options.

Anesthesia Face Masks, designed with a tear drop shape, are available in 5 sizes from neonate to adult. The soft cushion helps promote patient comfort. With a clear, flexible faceplate to better visualize patient lip color, Mindray Face Masks also provide color-coded head strap rings for easier size identification. The valve on face mask sizes 3, 4, 5 offers a port for inflation or deflation.

Filters/HME/HMEF meet ISO standards for humidification efficiency and filtration capabilities.

Standard 10' **Gas Sampling Lines** are available with male/male and male/female connectors.

Single patient use, sterile **Laryngeal Airway Masks** are available in seven sizes. Use the color-coded removable tab for easy size identification. Flexible tubing promotes ease of insertion. The soft, flexible cushion provides a seal around the epiglottis. Ensure proper insertion depth with easily identifiable tube markings.

Anesthesia Packages

Anesthesia Breathing Circuit Package, 22mm (pkg/20) 040-001909-00
 Includes: 22mm expandable hose, plain parallel wye w/gas elbow, 3L breathing bag, adult #5 face mask, B/V filter at machine end, sampling line

Anesthesia Breathing Circuit Package, 15mm (pkg/20) 040-001911-00
 Includes: 15mm expandable hose, plain parallel wye w/gas elbow, 1L breathing bag, B/V filter at machine end, sampling line

Breathing Circuits

Anesthesia Breathing Circuit, 22mm (pkg/20) 040-001910-00
 Includes: 22mm expandable hose, plain parallel wye w/GAS elbow, 3L breathing bag

Anesthesia Breathing Circuit, 15mm (pkg/20) 040-001912-00
 Includes: 15mm expandable hose, plain parallel wye w/GAS elbow, 1L breathing bag

Breathing Bags

Breathing Bag

3 Liter (pkg/20)	040-001921-00
2 Liter (pkg/20)	040-001922-00
1 Liter (pkg/20)	040-001923-00
0.5 Liter (pkg/20)	040-001924-00

Face Masks

Face Mask, Cushioned

Adult #5 (pkg/20)	040-001913-00
Small Adult/Child #4 (pkg/20)	040-001914-00
Toddler #3 (pkg/20)	040-001915-00
Infant #2 (pkg/20)	040-001916-00
Neonate #1* (pkg/20)	040-001917-00

*Neonate face mask is not for use with Mindray A-Series anesthesia machines.

Filters

Bacterial/Viral (B/V) Filter (pkg/20)

040-001918-00

HMEF (pkg/20)

040-001919-00
