Z6

Digital diagnostic ultrasound system in a compact design

The Z6 is a versatile hand carried Color Doppler ultrasound system which can be widely used in clinical practice. Mindray successfully blends powerful software packages, transducer technology, and ease of use in an economical solution that makes it possible to examine your patients anywhere and anytime without compromise.

In today’s demanding environment, it takes innovative technology to achieve a rapid diagnosis with high levels of clinical confidence. With exquisite design utilizing the latest in technological capabilities, Z6 expands your clinical capabilities and will meet your professional needs now and into the future.

Diagnostic confidence with advanced imaging technologies

- Dynamic Beam Forming
- iBeam™ Spatial Compounding Imaging
- iClear™ Speckle Reduction Imaging
- (PSHI) Tissue Harmonic Imaging
- (TSI) Tissue Specific Imaging
- B Steer, Trapezoid Imaging, Colorization
- iScape, panoramic view
Exceptional ergonomics and high productivity by design

Designed with the user in mind, the Z6 makes any location accessible.

- A smart new shape for enhanced mobility that is compact and lightweight
- Lightweight and durable transducers for multi modality imaging
- Quick Save One push image transfer to local or directly to USB
- iTouch™ Auto Optimization: single button image optimization
- iZoom™: enables accurate viewing of image from distance
- iStation™: clipboard, onboard reporting
- IMT: auto-measurement of carotid intimal thickness
- 15” high definition LCD, tilt display
- Backlit control panel
- Lithium-ion battery

Smart Workflow

With powerful user-defined presets, auto image optimization and patient information management system, Z6 makes it fast and easy to complete exams. Furthermore, Z6 provides onboard reporting and DICOM 3.0 which will greatly improve your workflow without any compromise in diagnosis accuracy.
Mindray is a global medical device manufacturer with three established business segments: Patient Monitoring and Life Support Products, Medical Imaging Systems, and In-Vitro Diagnostic Products. With more than 10,000 employees and R&D centers on three continents, we offer the medical community a wide range of innovative solutions designed to ensure the highest quality of care, while containing costs.

Learn how we can help you maximize your resources, with some of the most advanced and cost effective solutions in the industry.
