

M9

Ultrasound System

Ruby Edition

Intelligent Performance in Compact Form

The M9 ultrasound system is powered by next generation imaging architecture combined with 3T and Single Crystal transducer technology. The M9 Ruby Edition elevates your system workflow and performance with new transducers, significant imaging enhancements, and advanced feature capabilities. The Ruby Edition is designed to provide comprehensive outcomes for your challenging critical care environment.

Performance Enhancements

Optimized presets and imaging in all applications

Carotid Artery

Liver

New Capabilities

UWN⁺ Contrast Enhanced Ultrasound (CEUS)

Second generation, ultra-wideband non-linear (UWN⁺) CEUS imaging is now available for abdominal applications

Liver Lesion with UWN⁺ CEUS

M-Secure

Mindray's multi-layered approach to cybersecurity ensures patient data protection by implementing the top standards for data encryption, access control, and malware protection
